#### Town of Cape Charles

#### Press Release

Mayor Dora Sullivan is happy to announce that, yesterday, the Virginia State Water Control Board approved a Clean Water Revolving Loan Fund grant of approximately \$4.5 million of Federal stimulus funding for construction of the Town's new wastewater treatment plant. These funds were provided to the state by the American Recovery and Reinvestment Act. The Board also designated the Cape Charles project as one of three in the state to be first priority should additional funding become available.

These funds are in addition to an expected \$6.8 million Water Quality Improvement Fund grant for the nutrient removal processes of the new wastewater treatment plant. Together, the grants will fund about 68% of the estimated \$16.5 million project.

Mayor Sullivan said, "We are very appreciative that the Board adopted the recommendations of the Department of Environmental Quality. These funds will help tremendously in lessening the financial burden on our citizens as we contribute to the clean up of the Chesapeake Bay through reduced nutrient loads."

More information about the grants and the project can be obtained from the Town of Cape Charles, Mr. Bob Panek, at 757-331-3259, X19.
